

OHSCompliance Course Outline

HIRA - HIRA Hazard Identification and Risk Assessment Training

Version: 2026-05-20

Purpose:

HIRA training helps supervisors and teams identify hazards, rate risk, select controls and produce risk assessments.

Audience:

Supervisors, safety representatives, managers, contractors and employees involved in planning or controlling work.

Learning outcomes:

- Identify hazards linked to real tasks.
- Assess risk in a practical, structured way.
- Select controls that supervisors can monitor.
- Use HIRA records to guide training and inspections.

Typical evidence issued:

Attendance register and course completion evidence. Credit-bearing or accredited certification depends on the provider.

Related safety file evidence:

- Task risk assessments
- method statements
- training matrix links
- inspection findings

Category: Risk and incident control
